

DO YOU HEAR THE SIREN?

IT IS ONLY A TEST.

The City of Rhome will begin conducting monthly testing of the emergency outdoor warning siren system at 1:00 PM on the first Wednesday of each month.

This monthly test is necessary to ensure that the emergency warning siren system is functioning properly.

* If conditions are favorable for severe weather on a test day, the siren test will not be conducted.

Please contact Rhome City Hall at (817) 636-2462 with any questions or concerns.
